Student responses from the ICE Ethnodoxology course at Southern Seminary:

Thank you to those who prayed! This year's course was the largest yet; we thank God for these responses from students:

- *"God has used the Ethnodoxology class to sanctify me and convict me of egocentrism. Everyone should take this class – pastors, worship leaders, worshipers – everyone!"*
- *"This week's class helped me choose a minor field of study in Missions and Ethnodoxology."*
- *"This class was the single most meaningful class I've had.... It was a wonderful experience."*
- *"Seeing all nations and people groups worshiping in their own heart language is our goal and God's ultimate purpose. I enjoyed every part of the class immensely. I couldn't get enough of it."*
- *"For the first time in my life, I learned what music ministry really is... I thought that I would just learn a little bit about how to minister if I should ever go overseas, but I learned a lot about my church, and*

mostly about me... it has fundamentally changed my idea of ministry."

ICE File Share site - www.icefileshare.com

As another free benefit of ICE membership, ICE now has a **new** online electronic file folder system where associates can send files (even large media files) to an electronic location for others (even friends who aren't yet "icicles") to pick up. It's like a community table top where you can drop things off without having to email one another huge files. The instructions for accessing the site are filed in the members-only section of the ICE website. Let's share our best resources with each other!

**The ICE network exists to encourage and equip
Christ-followers in every culture to express their faith
through their own heart music and other arts.**

**We facilitate online networking and provide resources
for the development of culturally appropriate Christian worship,
utilizing insights from ethnomusicology, missiology, worship studies and the arts.**
