A New 'Handle'

GCoMM saw the birth of a lot of new ideas; one of these was the re-naming of the organization. It was felt that since ethnodoxology implies Christian worship, that there was no need to have it specified in the title of the organization (although we left it in the subtitle, as you can see). A big thank you to Sheila MacKenzie Brown for the "Council" idea!

Our logo is almost the same, but the motto is updated to reflect our new broadened focus on ethnodoxology. "**Worldofworship.org**" will be our web site, but don't worry, "heartmusics.org" will still function for at least one year.
